

We, the undersigned faculty, protest the recent changes to our health benefits.

These changes do not reflect a fair deal for GW faculty. They have been designed and implemented without meaningful consultation with or input from the vast majority of faculty members affected by them.

We demand the following:

- 1) That the 2014 employee health insurance premium contribution increase be retracted.
- 2) That all deductibles, co-pays and co-insurance remain at the 2013 levels.
- 3) That any future increases to our healthcare costs not exceed the annual merit-based salary increases.
